

SUSTAINABLE ENERGY FOR ALL  
**FORUM**  
KIGALI 2022

17-19 May 2022  
Kigali Convention Centre  
#SEforALLForum

Celebrating

**1** SUSTAINABLE  
ENERGY  
FOR ALL **YEARS OF SEforALL**  
**2012-2022**

Our journey as a community focused on  
the **SDG7 Vision to 2030**

Call to Action in alignment with the Paris Agreement by 2050

The findings in this presentation have been prepared by SEforALL drawing on the early findings of a 10 Year Review conducted by Strategy Development Solutions, an independent evaluation consultancy. The Review report will be published in the second half of 2022 and will set out the evidence that informed the Review, which did not involve a formal evaluation, along with limitations that should be taken into account when considering the findings.

# Acknowledgement

The findings in this presentation have been prepared by SEforALL drawing on the early findings of a 10 Year Review conducted by Strategy Development Solutions, an independent evaluation consultancy. The Review report will be published in the second half of 2022 and will set out the evidence that informed the Review, which did not involve a formal evaluation, along with limitations that should be taken into account when considering the findings.

# A community devoted to driving faster action towards **sustainable energy for all**

*VISION of SDG7 by 2030:*

ensure universal access to  
affordable, reliable and  
modern energy services

ZERO  
2050

# SEforALL is valued by partners

# These enable SEforALL to

**Provide reliable data and evidence** to challenge the status quo

**Set the agenda** around access and equity through global efforts i.e. COP and UN High Level Dialogue on Energy

**Convene diverse voices,** engage where others cannot, collaborate widely and effectively

# The SEforALL Community's **10-Year Track Record**

2012

Self-sustaining community of interest formed

2015

Ambition of SDG7 defined and adopted

2016

Independent, credible organization representing SDG7 established

2019 - 2020

Strong data and evidence track record established with the sector

2017 - 2018

Energy access widely recognized as a development issue

2017 - 2018

Advocacy activated, backed by growing evidence and knowledge base

2020

Customized country support; meaningful change secured through country-specific partnerships

2020

Powering healthcare programme elevated in response to COVID-19

2020

Gender and Youth further prioritized in support of inclusive and equitable energy transition

2021

Ambition increased through UN Energy Compacts

2020 - 2021

Energy access as part of a just and equitable energy transition prioritized

2022

Finance committed by this community at scale not seen before

SUSTAINABLE ENERGY FOR ALL  
**FORUM**  
KIGALI 2022

# As a **community**, we have jointly achieved...

**200+**  
Network of  
partners

**90+**  
Countries  
supported

**200+**  
UN Energy  
Compacts

**\$600 Bn+**  
Finance  
committed

# The road ahead: Achieving SDG7 by 2030 requires a **just and equitable energy transition**.

2022

2030

NET  
ZERO  
2050

Accelerating **global ambition** for energy and climate

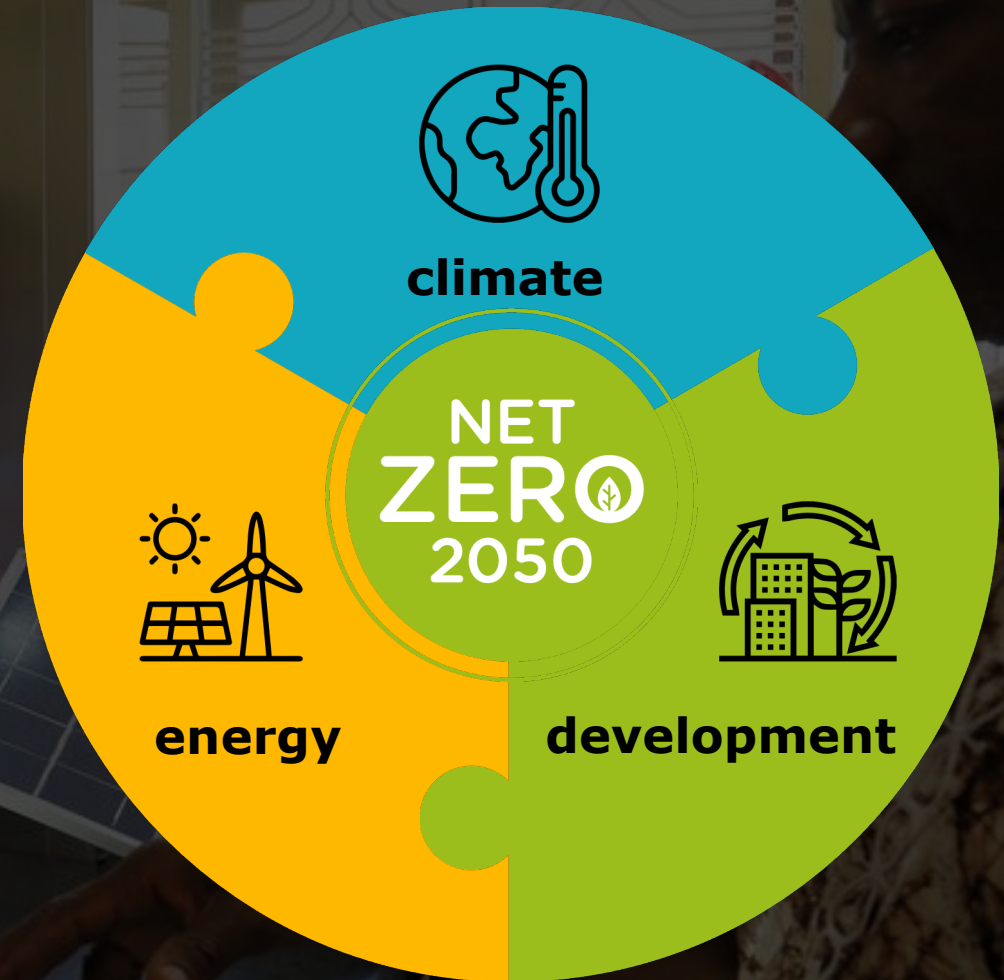

Developing **stronger policy, regulation and planning** to create a more enabling environment

Delivering faster results by **securing and directing finance** to **establish new energy connections**

What does  
SEforALL mean by a  
**just and equitable  
energy transition?**

Together, we can make sure that  
everyone, everywhere has the energy  
they need to reach their potential.

**Let's truly leave no one behind.**
